**Turing School of Software  
& Design**

**Xavier University  
BS Chemistry**

## Profile

Proven track record with over 7 years of experience in testing and evaluating products to ensure integrity for customers. Proven expertise managing detail-oriented tasks. Enthusiastic software developer with a continuous desire to learn and enjoys change.

## PROJECTS

### Movie-Tracker

<https://github.com/KStockton/Movie-Tracker>

This is an app for people who would like to browse through movies and keep track of their favorites. It displays movies in various categories like top rates and in theatres on the home page, and you can click into categories to view all movies of that category.

React.js | Ansync fetch | jest/enzyme | Redux

### Climb-On

<https://github.com/KStockton/climb-on/blob/master/README.md>

This project is a collection of Colorado climbing areas and their associated routes. Users are able to search by an area they are interested in, either by name directly or by a nearby city.

React.js | Ansync fetch | jest/enzyme

### Swapi-Box

<https://github.com/KStockton/swapi-box/blob/master/README.md>

A project utilizing the Star Wars API to display various information using asynchronous JavaScript and a card UI. A user can select people planets or vehicles to view cards contain various information.

React.js | Ansync fetch | jest/enzyme

## Experience

### Turing School of Software & Design

Turing students invest over 90 hours weeks across seven months in becoming job-ready front-end software developers.

### National Water Quality Laboratory

Performed lab audits and generated surveillance reports. Reviewed data for 400 analysis. Vigorously tested Vendor products to ensure the products met specifications.

### Boulder Scientific Company

Vigorously tested Vendor products to ensure the integrity of the product meet our specification for our customers. Tasked with solo projects for CEO
